EDUCATION

B. Tech, IT
Kakatiya Institute of Technology & Science
2021-25 | Warangal
CGPA: 9.0

Intermediate, MPC
NRI Junior College
2019-21 | Hyderabad
Percentage: 98.6%

SSC
Telangana State Model School
2018-19| Ghanpur(M)
CGPA: 9.5

SKILLS

PROGRAMMING
Languages
- Advance: C++, Java
- Intermediate: C,Python,JavaScript
- Novice: Php

Tools
- GIT • Linux • Figma

Frameworks
- React Js

Technologies
- HTML • CSS • Selenium
- SQL
- UI & UX
- Android Studio

OTHERS
- Digital Marketing
- Wordpress
- Exploring new technologies

SOFT SKILLS
- Leadership
- Adaptability:
- Problem Sloving

LANGUAGES KNOWN
• English • Hindi • Telugu • Malayalam

SUMMARY

Passionate and innovative student skilled in C++, Java, Python, and web development. With hands-on experience from internships and projects, I bring practical knowledge in Data Structures and Algorithms. Known for my strong communication and leadership skills, I'm eager to join a dynamic software development team and contribute to innovative projects.

PROJECT(S)

DeepFake Detection Using Deep Learing   Python | ML |

Problem: In the modern era, many videos are morphed and edited using deepfake technology, posing a threat to privacy.
- Gather a comprehensive dataset of both real and deepfake videos.
- Utilize MTCNN to detect and align facial landmarks, then extract crucial facial features and analyze inconsistencies typical in deepfakes.
- Train a machine learning model on the extracted features to differentiate between real and deepfake videos, using techniques to handle class imbalance and optimize performance.

Netflix clone website   HTML | CSS | Javascript
- I have cloned a Netflix website using HTML, CSS, and JavaScript. The project replicates the design and basic functionality of the original platform.
- Link :netflix

INTERNSHIP(S)

Cisco AICTE Intership: Intern | Sep 2023 - Oct 2023
- The Cisco Networking Academy grants a virtual internship program in Cybersecurity, offering practical experience and skill development. This program is designed to prepare participants for careers in the cybersecurity field.

Front End development: Intern | Jun 2023 - Jul 2023
- During a 6-week IBM SkillBuild internship, I developed a replica of the Netflix website, showcasing proficiency in web development technologies such as HTML, CSS, and JavaScript. This project demonstrated practical skills and understanding of front-end development within a limited timeframe.

Social Media Manager: Intern | Jan 2024 - mar 2024
- Developed the Landing page for Beefreshhoney.
- Headed of Social Media Production Team.
- Managed Amazon and Flipkart logins while implementing SEO strategies across all pages for enhanced visibility and performance.
